DETAILED ACTION

Allowable Subject Matter

Claims 1-12, 19-23 and 28-38 are allowed.

The following is an examiner's statement of reasons for allowance: The combined prior art is not able to overcome the limitation of having the imaging device communicate the metrics information directly to a second device without communicating this information through any other intermediate device.

As a result, the amended claims overcome the prior art and are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
